*Dear Tax Colleague,*

As a leader in the tax profession you are aware that in the last decade we have made some positive strides towards equality but a fundamental issue still exists; diversity in the tax profession—*especially ethnic*—is seriously lacking and to the overall detriment of the tax field. For this reason alone, a group of senior tax executives and I founded TaxDiversity, a 501(c)(3) nonprofit organization and dedicated the organization to strengthening the tax profession through diversity.

***Now, we ask that you make a commitment with us!***

We ask that you join our efforts and help expand this important community by becoming a **Corporate Member of TaxDiversity**. By making a simple effort to support this cause you will be demonstrating your business commitment to embracing diversity—not simply to tax professionals who already know you—but to the next tax generation that is even more ethnically and gender balanced across all levels of our field. Together, we can make this opportunity a reality!

Your company's direct support of TaxDiversity will help us expand important resources that are specific to diverse tax professionals at every level—from high school students searching for diverse career options to senior managers that have influence within the changing face of the tax profession. Your participation through a Corporate Membership helps expand our diverse campus outreach, scholarships, and mentoring programs. Your support advances our original diversity research in Tax and helps us continue the advancement of our vital profession.

Please take a moment and review the information on the TaxDiversity Corporate Membership Program. I personally welcome any questions you may have and thank you in advance for making an effort to help us all strengthen the tax profession through diversity.

Sincerely,

Tony Santiago  
Founder  
TaxDiversity
